# Introduction

In 2004, the legislature passed the “Tax Credit Accountability Act”. The statute, RSMo 620.017.4., requires that the Department of Economic Development prepare an annual report regarding all economic incentives administered in the previous calendar year and submit the report to the Governor, President Pro Tem of the Senate, and the Speaker of the House of Representatives.

The annual report must include the following information:

- The distribution of economic incentives by type and public purpose. In the statute, RSMo 135.800, all tax credits are grouped into a category, or type, based on their public purpose. This section of the report reflects the distribution of incentives by those categories, which are as follows:
  - Agricultural
  - Environmental
  - Entrepreneurial
  - Domestic and Social
  - Housing
  - Redevelopment
  - Training and Education
  - Business Recruitment
  - Community Development
- The total amount of economic incentives awarded by industry. All incentives issued to organizations or businesses are broken down by North American Industry Classification System (NAICS) Codes.
- The distribution of economic incentives by the size of all business recipients. All incentives issued to businesses only are broken down by business size categories of less than 100 employees, 100-500 employees, and greater than 500 employees.
- A reporting of any legal action taken by the department or the state with any parties which have failed to comply with a contract or agreement pursuant to this section.

All economic incentives are reported by the amount that has been issued to the taxpayer in the calendar year. Issuance of a tax credit indicates that the Department of Economic Development has determined it meets eligibility criteria and has proof that the organization or company has met the program requirements. Tax credits are issued using a certificate which may be attached to a state tax filing for redemption through the Department of Revenue.

The information is collected through the application and review process. RSMo 135.802 requires that all applications include:

- Name, address, contact and phone number for the applicant.
- Taxpayer type
- Standard industry code (The NAICS system has replaced the Standard Industry Code system for identifying industries at the federal level.)
- Program name and type of any other tax credits (state or federal) that are being utilized for the same activity or project.
