Program Description and Eligibility Requirements: <p>The Affordable Housing Assistance Tax Credit Program (AHAP) is an incentive for businesses and qualified individuals in Missouri to participate in the production of affordable housing for low-income families. The credit can be used by a business firm or qualified individual as a reduction in their state tax obligation. To receive the AHAP credit, a business firm or qualified individual must donate cash, professional services or real or personal property to a non-profit housing organization to assist with the acquisition, rehabilitation and/or new construction of a specific affordable housing development. There is also a set-aside of AHAP credit for the basic operating expenses of non-profit organizations whose primary purpose is to provide affordable housing for low-income families.</p>					
Explanation of How Award is Computed: Entitlement _____ Discretionary <input checked="" type="checkbox"/> <p>The amount of Affordable Housing Assistance Program Tax Credit allocated is equal to 55% of the amount of the contribution. Non-profit organizations make application to the Missouri Housing Development Commission (MHDC) for a reservation of AHAP credit. The non-profit organization then solicits contributions from businesses or qualified individuals to assist in the production of a specific affordable housing development. After MHDC receives the necessary documentation of a qualified contribution to the non-profit organization that meets all of the criteria set out in the statute and program regulations, a tax credit is issued to the donor in the amount of 55% of the value of the contribution. Applications for production credits are accepted continuously, and applications for the operating credit set-aside are usually accepted twice a year.</p>

HISTORICAL AND PROJECTED INFORMATION

Comments on Historical and Projected Information: Recent experience (FY10-FY11) has seen a decline in utilization of the AHAP credit, which may be related to problems in the housing and construction industry and fewer charitable contributions due to the downturn in the overall economy. Prior to FY09 annual authorizations averaged approximately \$10,000,000 and annual issuances averaged approximately \$9,000,000. As the economy improves, authorizations and issuances are projected to return to full utilization.

Other Benefits: The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit also increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies would not be able to administer their affordable housing programs.
