Action Plan

Grantee: Missouri

Grant: B-08-DI-29-0001

LOCCS Authorized Amount: $ 97,605,490.00
Grant Award Amount: $ 97,605,490.00
Status: Reviewed and Approved
Estimated PI/RL Funds: $ 0.00
Total Budget: $ 97,605,490.00

Funding Sources

Narratives
Disaster Damage:

DREF - Anticipated Unmet Needs The State of Missouri received more than 230 applications for funding in excess of $250,000,000 for our PL-110-329 appropriation. This is nearly two and one half times the state's awarded grant amount. To date we have awarded 55,230,947 that are detailed in DRGR, with another $25,071,500 committed and in process of executed grants. There are applications currently in our review and development process that will exceed the remaining Supplemental Appropriation and will be awarded based on competitive scoring. Missouri is proposing to dedicate $5M of funding to access a dollar for dollar match of $5M more in DREF funds. The funds will be offered using a request for proposals or notice of fund availability method of distribution. Applicants will be evaluated on need, impact, and local effort. The State of Missouri has a significant amount of land mass residing in the 100 year and 500 year floodplain, as defined by the Federal Emergency Management Agency FIRM maps. Historically, the state developed using the river network (Missouri River and Mississippi River and their tributaries) as a transportation network to ship goods to the west. As such, communities developed and grew along those rivers and tributaries. That growth has contributed to flooding events that impact the health, safety and well-being of Missourian’s. Loss of life and loss of homes, businesses, personal property and the devastation to real property has burdened the state during significant, widespread flooding events. Between 1990 and 2009, Missouri recorded more than 90 deaths due to flash and riverine flooding. Proof of that widespread damaging capacity came in the form of a Presidential disaster declaration for 106 of the 114 total counties in the State in 2008. Missouri is home to 977 cities, towns and villages in those 114 counties. Since the floods of 1993, Missouri has created and implemented an aggressive buyout of properties in the floodplain and we have realized substantial savings as a result. More than 1000 properties have been purchased and deed restricted in perpetuity to open space activities in the last decade and one half. Those properties will never again receive a National Flood Insurance Program payment. They will never subject a resident to danger or experience damage to a structure. The program can be called a success. However, FEMA estimates that more than 216,000 households are within designated floodplains in Missouri. To date, in the short period between the notice of available DREF funding, we have identified 5 more communities that are prepared to support more buyout activities. There are more eligible properties, more willing communities, and more families deserving of a decent, safe and sanitary comparable home, outside of the floodplain. Many of these communities will use CDBG funds to match FEMA Hazard Mitigation funding but there are additional, smaller river communities that are not eligible for FEMA funds, that our efforts could support, as well. Even with the buyout activities, Missouri’s communities will always be linked to the rivers. Their future, their viability and in many cases their economic activity is still linked to the waterways. It is so, that access to funding and use pite resource activities. We have regional planning commissions, councils of government, and federally designated economic development districts. Those service providers assist with economic development strategic planning, redevelopment planning and planning related to specific projects. There is however, a gap in a community’s access to real land use planning. Some mitigation efforts in Missouri have been driven by need as a response to an event. Land use planning will give many communities an opportunity to address that next step of
Recovery Needs:

Activity Descriptions and Budget

The following DRGR activities and respective funded amounts are being undertaken by grantees. The following projects and activity descriptions totaling $18,312,603 have been awarded to date.

Pulaski County - Renovation of Devil's Elbow Bridge 243,900
Schuyler County - Replacement of 3 small bridges 97,560
Montgomery County - Hwy 19 railroad overpass 2,250,000
Emnience - water system improvements 487,500
Morgan County - Bridge replacements - Meadowbrook Rd 200,000
Nodaway County - Bridge 686 replacement 272,097
Savannah - Main Street Culvert 245,658
Scotland County - (5) Bridge Replacements 585,365
Macon County - Walnut Creek Twp bridge rep. 400,000
Taney County - Boys' Camp Road improvements 243,900
Dixon - Roadway Improvements 24,390
Maryville - 16th Street improvements 365,853
St. Louis County- Wellston Child Development Center 2,000,000
New Madrid County- Economic Development Loan 2,500,00
St. Louis County- Planning 1,000,000
Mexico - infrastructure loan 4,000,000
St. Genevieve County - port authority improvements 2,207,356
Jefferson City - demolition of blighted structures 2,136,100
Perryville - industrial infrastructure improvements 674,655
Houston - public infrastructure improvements 695,100
Lake Ozark - roadway construction/repair 4,000,000
Bellefontaine Neighbors - demolition of blighted building(s) - $3,500,000, Canton - demolition of properties in use of future commercial development - $1,990,000; Pettis County - Waste to Energy facility - $1,600,000; Action Fund Loan to Platte County to assist Nordic Windpower USA, Inc in relocation - $4.6 Million; St. Louis County - planning $262,500; Cuba - water improvements to Industrial Park - $ 295,200

Other funds will be allocated as follows:
State Administration - $2,315,137
Local Administration - $2,315,137
Housing - $10,372,631*
- Housing activities will address rehabilitation, infrastructure support, and new construction of rental housing. Activities are currently being reviewed and evaluated as part of a separate application process. Awards to date for housing projects are as follows, and details are listed in each Project description on the set-up page. Belton - $717,500, Brashear - $997,600, Crawford County - $484,000, Eldon - $425,786, Moberly - $701,874, Osage County - $955,392, Pulaski County - $306,563, St. Louis - Dutchtown $2,750,000; St. Louis - North Sarah $1,600,000; St. Martins - $56,783; Harrisonville - $750,490

Economic Development Planning - $12,000,000* - ED Planning activities include a "Training for Tomorrow" initiative to increase the capacity of Missouri Community Colleges to develop new and expanded programs designed to retrain and re-employ Missourians in middle-skill occupations that will help drive economic recovery. County governments in disaster areas applied on behalf of community colleges. Priorities for funding included: well planned activities represented by a detailed description of the capacity building actions required to develop new programs represented by proof of alignment with local economic recovery efforts; final product represented by the creation or addition of specific high demand career pathways; and a detailed implementation plan for program use. Planning will also include specific planning projects to facilitate economic or long-term disaster recovery in disaster affected regions. Planning grants have been awarded as follows with details included Project Descriptions.

Butler County $747,050.00
Cass County $2,221,660.00
Franklin County $769,000.00
Greene County $1,157,525.00
Grundy County $470,831.00
Jefferson County $871,000.00
Newton County $758,112.00
Pettis County $718,500.00
Randolph County $696,011.00
St. Charles County $1,149,973.00
St. Louis County $2,060,338.00
St. Francois County $380,000.00
Amendment #2 to second Disaster Supplemental Action Plan

Unmet Need from 2008

Already reeling from multiple weather related events in 2008, the region had suffered previous loss of homes and businesses through tornados and flooding from which they had not recovered. Multiple Presidential disaster declarations were made as a result of the repeated damaging weather in 2008. In addition, 2010-2011 Tornado events have exacerbated needs in some areas. The state is proposing to allocate $27,000,000 to allow communities affected by tornadoes in 2010 and 2011 to access 2008 Disaster Supplemental funds to address housing and economic revitalization needs that were exacerbated by the 2010/2011 events, or otherwise meet unmet needs from 2008. While specific detailed grantee activities are still being determined, housing and business lending and demolition activities are expected to comprise all of the reserved amount. Initial estimate of business lending is being allocated at $3,000,000. The $3,000,000 is set up as a project in the action plan, and the remaining $24,000,000 is set up as a project until specific housing and other activities are identified.
2008 Disaster Declarations in Missouri:
DR-1742 (Barry, Dallas, Laclede, Maries, McDonald, Newton, Phelps, Stone, and Webster)
DR-1748 (Bollinger, Butler, Cape Girardeau, Carter, Christian, Douglas, Greene, Madison, Mississippi, Ozark, Reynolds, Scott, Shannon, Stoddard, Texas, Wayne, Webster, and Wright)
DR-1760 (Barry, Jasper, and Newton)
The following projects were undertaken following the 2008 CDBG Disaster Supplemental Appropriations in the areas covered by this Amendment.

Project # / 2008-DI-03 / St. Louis County (planning) 2008-DI-03

Grantee Activity Number: DI-2STLC01
Activity Title: St. Louis County 2008-DI-03

Activity Type: Planning

Project Number: 2008-DI-03

Projected Start Date: 12/02/2009

Projected End Date: 04/08/2019

Location Description:
Planning services to evaluate the viability of Lambert airport as a cargo hub. Project will spur economic revitalization of St. Louis area.

Activity Description:
The flood also disrupted normal commercial activity. In order to address this recovery, rebuilding, standing alone, is insufficient. It is critical to invest in new commercial opportunities to expedite a full economic recovery and protect against future disasters impacting the area economy.

Funds are restricted to payments directly related to Aerostrat contract for planning services to evaluate the viability of Lambert airport as a cargo hub. CDBG funds shall not release more than $500,000 for payment to Aerostrata prior to either 307 billed "man days" (as defined in said contract), or a period of 6 months after execution of the contract, whichever comes first. The remaining $500,000 shall be released for drawdown only upon successful evaluation of the viability of a cargo hub located at Lambert.

Location Description:
Highway 19 overpass at the railroad located in Montgomery County.

Activity Description:
The county proposes to partner with the Missouri Dept. of Transportation to construct a new Highway 19 railroad overpass north of I-70 in conjunction with relocation of a portion of the highway, that will go over, instead of under the tracks. Street improvements mitigate flooding issues. Improvements mitigate hazards identified for housing in addition to general health & safety.

Location Description:
Project is located at South Fish Haven Road and Forrest Hills Drive, across the street from the Lake Ozark Lions Club.
Activity Description:
Funds will be used for water and sewer improvements associated with construction of a 60-unit multi-family housing complex. The first phase of the Fish Haven Apartments project will provide 35 two-bedroom, two-bath units and 25 three-bedroom, two-bath units; green space; and a community building. Once the development is completed, income restrictions will apply. The units will be leased to households earning 60 percent of median income and “market-rate” units will be leased to households earning 80 percent of median income.

Most Impacted and Distressed Budget: $0.00

Other Funds: $0.00

Total Funds: $2,201,526.00

Location Description:
New Bourbon port located in St. Genevieve County.

Activity Description:
The current New Bourbon port is a limited access facility, and is frequently shut down due to Mississippi River flooding. The CDBG funds will assist in the construction of a loading facility that can remain open during higher river stages than is currently possible. The Mississippi River flooding greatly impacts several industries in Ste. Genevieve County. When the river floods the county’s largest employer is forced to limit production and to lay off workers because their river terminal becomes inaccessible. Construction of the Port of New Bourbon will...
provide local business and industry with a shipping terminal that is accessible during high water and will allow companies, who
are now forced to limit production during flooding, to remain at full operation. This project will not only preserve existing jobs, but
will offer opportunities to new businesses to locate and utilize the harbor and dock for river transport.

Location Description:
Project will assist with a strategic plan for the economic development of the area containing the closed Chrysler Plant in St. Louis County.
The Plant is located in the municipality of Fenton in south-west St. Louis County.

Activity Description:
St. Louis County proposes to address the economic challenges caused by the region’s transitional economy in
general and the closure of the Plant in particular by developing a strategic action plan to: 1. diversify and strengthen the region's economy by developing new investment and job growth opportunities in emerging, high-growth industries with global markets; 2. retain and expand employment opportunities; and 3. reposition the Plant to take advantage of the opportunities the Strategic Plan identifies with an emphasis in sustainable production facilities. This effort will significantly enhance the ability of the St. Louis region and the State of Missouri to compete in the worldwide marketplace and will, therefore, have a profound economic impact on the region and the state.

**Activity Description:**  
Preparation of plans for areas, incorporating the activities below, within the federally declared disaster areas relevant to 2008 flooding. This activity is part of a forward-thinking land use plan (DREF Qualifying Activity A).
Activities include:
• localized mapping as it relates to communities and modified flood zones and decertified levees,
• Technical assistance and/or planning for land utilization in high hazard areas
• Professional development for local community leaders responsible for floodplain management
• Technical assistance for completing cost benefit analysis for hazard mitigation funding
• Identification, minimal mapping and mitigation planning for critical infrastructure,
• Integration of program outcomes with various state and federal agencies
• Technical assistance to assist community leaders in the decision making process in order to prevent future development in high hazard areas, mitigate existing risks in hazard areas, and to implement identified mitigation strategies.

Location Description:
Municipalities of Boone, Callaway, Cole Cooper, Howard, and Moniteau counties in the Mid-MO Region

Activity Description:
Preparation of regional plan for areas within the federally declared disaster areas relevant to the 2008 floods. This activity, incorporating the various components listed below, is a part of a forward-thinking land use plan (DREF Qualifying Activity A). Area covered includes Boone, Callaway, Cole, Cooper, Howard and Moniteau counties. Activities include:
• localized mapping as it relates to communities and modified flood zones and decertified levees,
• Technical assistance and/or planning for land utilization in high hazard areas
• Professional development for local community leaders responsible for floodplain management
• Technical assistance for completing cost benefit analysis for hazard mitigation funding
• Identification, minimal mapping and mitigation planning for critical infrastructure,
• Integration of program outcomes with various state and federal agencies
• Technical assistance to assist community leaders in the decision making process in order to prevent future development in high hazard areas, mitigate existing risks in hazard areas, and to implement identified mitigation strategies.

Activity Description:
Acquisition of flood damaged residential properties in Jefferson City. This activity is part of a Buyout Program (DREF Qualifyihng Activity B), which will result in the clearance of buildings in areas vulnerable to future disasters. Project will assist JC in acquiring 5 flood-prone properties. These properties do not meet the FEMA benefit cost analysis, and are not FEMA eligible so FEMA funding is not available. City is using CDBG entitlement funds for part of this project.
