Narratives

Disaster Damage:

Between April 28 and May 11, 2017, the state of Missouri was struck by severe storms, tornadoes, straight-line winds, and flooding. During the weekend of April 29-30, a strong storm system brought multiple rounds of thunderstorms and heavy rain to the southern two-thirds of Missouri. Rainfall totals surpassed nine inches in some locations causing flash flooding and historic flooding along some of the tributaries of the Missouri and Mississippi Rivers. A few thunderstorms also became severe during the afternoon of April 29 with two documented tornadoes. April 2017 became the second wettest April on record in Missouri over the past 123 years largely because of this event. The flood caused significant damage to housing, state and local public and private infrastructure, as well as businesses, natural resources, downtown districts and historic courthouses. The flash flooding was destructive in nature as swift headwater flooding filled streams to capacity from the severe rains. An estimated 25 percent of the flooding occurred in areas outside of the 100 year floodplain. After the storming and flooding ended, a total of 55 counties were declared Federal disaster areas. More than 1,900 homes were assessed by FEMA as damaged or destroyed. FEMA also assessed more than \$113 M in estimated damages to roads, bridges, and other public infrastructure. On May 24, 2017, Governor Eric R. Greitens requested a major disaster declaration due to severe storms, tornadoes, straight-line winds, and flooding during the period of April 28 to May 11, 2017. On June 2, 2017, a Presidential Declaration of a Major Disaster was announced for a total of 55 counties in response to the historic flooding that caused destruction of homes, businesses, roads, bridges, other public infrastructure, as well as, damage and interruption of non-profit service providers. FEMA declared 33 counties for both Public Assistance and Individual Assistance, 20 counties for Public Assistance only, and 2 counties for Individual Assistance only. Housing Impact: initial damage assessment information collected April 28, 2017 immediately following the storm identified 5,333 primary residences in 37 counties as either affected by the storms (403), suffering minor damage (1810), suffering major damage (1464) or destroyed (456). Those primary residences included single family, multi-family or mobile homes. Infrastructure: The FEMA Public Assistance Summary for DR-4317 includes the receipt of 248 applicants requesting assistance of which 223 were deemed eligible. The public infrastructure costs derived from the FEMA Project Worksheets total \$113.9 M. The largest number of applications for FEMA public assistance came from city and county government special district governments; many of whom suffered total damages greater than their respective annual budgets. Economic Revitalization: 940 businesses were referred to SBA for business loan assistance. At the time of Action Plan submission, 81 business loans have been approved. The average loan amount is \$218,153. The 2017 flooding impacts were realized in both the tourism and agriculture sectors. The chart on p. 11 of the Action Plan lists the counties that were designated as being adversely affected by the disaster and eligible for assistance. Both FEMA Public Assistance and Individual Assistance are included. 52% of Missouri's residents live in the declared counties. Missourians living in the declared counties are poorer by 35% than the statewide average. A data table on p. 22 provides data from the census bureau that captures the impacts on the local economy through a variety of

demographic data. FEMA data provided the following self-reported circumstances that may be classified as vulnerable: 895 Owner-occupied units; 429 Renter units. The unmet need assessment did indicate damage to dormitories (68 units), a group home (1), and several transitional units (36); total dollar value of unmet need \$3.2 M.

Recovery Needs:

Both Federal Register Notices require that the State primarily consider and address its unmet housing recovery needs. After the State demonstrates through need assessments that there is no remaining unmet housing need or that the remaining unmet housing need will be addressed by other sources of funds, the remainder of the allocation may address unmet economic revitalization and infrastructure needs that are unrelated to unmet housing needs. This Action Plan outlines the use of those CDBG-DR funds in a manner that directly addresses the unmet need. Missouri submits this Action Plan to outline its unmet needs and establish how the state will allocate its funds through its programs. The Unmet Needs Assessment, which evaluates the three core aspects of recovery - housing, infrastructure, and economic development - forms the basis for the decisions outlined in the Method of Distribution. This Action Plan was developed with the help of many state and local stakeholders as well as the public to target the unmet need that can be addressed by these limited federal funds. Given the current status and the timing between the flooding event and the appropriated CDBG-DR funds, the largest area of identified remaining public service need is housing counseling and legal counseling. Missouri deployed two tactics to determine and define the unmet need from the 2017 flooding in the broad categories of Housing, Infrastructure and Economic Revitalization. First, the state developed a written needs assessment and survey tool that allowed the collection of data to be aggregated upon receipt. Data collected at the county level that most closely matched the other sources of information available, suited the partners that were engaged in the process, and was most efficient to meet the timeline. The survey tool collected units of data identified in an Excel format under the broad categories of Housing/Homeownership; Housing/Rental; Infrastructure; Community Facilities; Direct Business Assistance; and Commercial Development. To address information that might be available on the local level, the Department of Economic Development (DED) deployed their partners from the Regional Planning Commissions and Community Action Agencies to identify, collect and report the data from the 55 counties that were declared in the disaster. In addition to the survey data, the DED used available databases from FEMA, SBA and National Flood Insurance Program (NFIP) to extract and extrapolate unmet need by applying assumptions to circumstances based upon eligibility and access to disaster funding. The combination of these two sources makes up the estimated unmet needs in the three categories of Housing, Economic Revitalization and Infrastructure. Missouri will deploy a two-pronged approach to ensure that all persons with an unmet need, including those with wide-ranging disabilities including mobility, sensory, developmental, emotional and other impairments have been identified and assessed for assistance. The first prong is to reach out to know partners that work every day to assist individuals having wide-range disabilities. The second prong is to establish the mechanism of outreach and referral within the service delivery mechanism as it relates to the funds. If any families were missed because of the needs assessment, each local intake center will have knowledge of and access to the additional expertise and service providers within the region that work in the area specific to the individual need. Summary of Unmet Need: Housing: \$103.9 M Infrastructure: \$91.1 M Economic Revitalization: \$142.5 M. The State's Method of Distribution, program activities and housing program outline are explained in the most recent Action Plan Amendment and available to the public at: <https://ded.mo.gov/DisasterRecovery>. The State will conduct an ongoing needs assessment to reprogram funds to remaining funds available.

Bootheel Regional Planning Commission

Organization Type

Local Government

Proposed Budget

\$ 34,650.00

Location Description:

10 selected communities in the Bootheel Region

Activity Description:

The BRPC will need a total of \$35,000 to complete a housing study in 10 of the selected communities in the Bootheel Region. The BRPC will follow procurement guidelines on properly selecting a firm to complete the housing study, estimated at \$34,650, and \$350 for project administration. Further, the BRPC will request \$6,930 from the Missouri Association of Councils of Government as match to pay for the housing study in the selected Stoddard County communities (Dexter and Puxico). If the grant is not awarded through MACOG, the BRPC will request the county and the cities to provide the match.

Proposed budgets for organizations carrying out Activity:

Responsible Organization	Organization Type	Proposed Budget
City of Branson	Local Government	\$ 775,000.00

Location Description:

The location of the project site is within the city limits of Branson, with the entrance to the site on Gretna Road and bounded by undeveloped woodland to the north and east, a thrift store to the south, and Gretna Road to the west. The size of the property is 5.04 acres.

Activity Description:

Project will include construction of the public infrastructure, including roads, water, and sewer, that will be in support of an affordable housing development, known as Elevate Community Village, to be built by Elevate Branson. Elevate Community Village will build 48 400-square foot homes, two micro-enterprise opportunities (an automotive service shop and an art studio), as well as a missions bunkhouse for large mission groups to rent as they volunteer at the Village or other places around Branson.
