Disasters:

Declaration Number
FEMA-4317-MO

Narratives

Mitigation Needs Assessment:
To align with the requirements in the FRN (84 FR 45840), MO DED has developed a Risk-Based Mitigation Needs Assessment to identify and analyze all significant current and future disaster risks in order to provide a substantive basis for the activities proposed in Section 5, CDBG-MIT Program Design. This Assessment:

1. Provides an overview of Missouri’s geographic landscape;
2. Summarizes climate trends and projections that may contribute to current and future risks;
3. Discusses historic damage patterns that have impacted the State of Missouri;
4. Identifies all considered resources, including the FEMA-approved SHMP and local Hazard Mitigation Plans (HMPs);
5. Assesses current and future risk to critical service areas or community lifelines;
6. Assesses risk to vulnerable populations and LMI; and
7. Addresses unmet mitigation needs in response to identified current and future risks.

The State consulted with SEMA, RPCs, the private sector, and other governmental agencies to provide a multi-hazard Risk-Based Mitigation Needs Assessment for the HUD and Missouri State Most Impacted and Distressed (MID) areas. This analysis of a broad range of data sources was key in the development of a comprehensive assessment of the hazards discussed here, which pose substantial risk of loss of life, injury, damage and loss of property, and suffering and hardship.

Proposed Use of Funds:

General Infrastructure Program
- Total Program Funds: $13,309,440
- Maximum Award per Project: $2,500,000
- Estimated Projects: 6 (up to 3 per each MID region)

Public Facility Hardening Program
- Total Program Funds: $13,309,440
- Maximum Award per Project: $5,000,000
- Estimated Projects: 2 (at least 1 in each MID region)

Critical Facility Generators Program
Total Program Funds: $3,327,360  
- Maximum Award per Project: $50,000  
- Total Estimated Projects: 66 (up to 33 projects in each MID region)  
  Warning Systems Program  
  - Total Program Funds: $3,327,360  
  - Maximum Award per Project: $50,000  
  - Total Estimated Projects: 66 (up to 33 projects in each MID region)  
  Mitigation Planning  
  - Total Program Funds for Mitigation Planning: $3,119,400  
  - Maximum Award per Project: $150,000  
  - Total Estimated Projects: 20 (up to 10 projects in each MID region)  
  Capacity Grants  
  - Total Program Funds for Capacity Grants: $1,934,028  
  - Maximum Award per Project: $200,000  
  - Total Estimated Projects: 10 (up to 5 staff in each MID region)

Overall Progress Narrative:

18-DP-MIT01 Narrative
The grant award was formally accepted by the city of Branson on June 22, 2021. Through this quarter, the environmental Review (ER) has been worked on and was submitted to CDBG officers. During the ER Process, native tribes were consulted and asked for comments regarding the proposed project. The Osage Nation requested a Cultural resource survey be conducted on the land. The cultural resource survey results showed no significant impact or artifacts in the area. Results were sent to the osage tribe who made no objection to the findings. ER was submitted to CDBG and approved by CDBG personnel. A combined notice has been drafted and ready to publish, however we must wait on a budget increase request to be approved before moving further. Engineers submitted statements of qualifications and five statements were received. Procurement team ranked these engineers and selected one and will have a formal agreement in place by October 2021 with the project engineer.

18-DP-MIT02 Carter County Narrative
We received the Authority to Use Grant Funds after the Environmental Review was completed on June 1, 2021. We went out to bid for this generator back in June of 2021. We did not receive any bids at bid opening, so we decided to change our approach. We have several other generator projects that were awarded, so we decided we would wait and bid most of them out at the same time to see if that would help us get bids. We plan to put this out to bid again sometime in the next couple of months.

18-DP-MIT03 Carter County Narrative
Included as a part of the total activity funds expended this quarter is the environmental review administrator’s hours from October 2020. The environmental review is complete. Will be advertising for bid by end of October. Risk Assessment has been completed and submitted to CDBG. Completed the projected expenditures report and submitted to CDBG July 29, 2021. Received a draft copy of engineering firm, Smith and Company’s contract and forwarded to CDBG for review and approval.

18-DP-MIT04 Carter County Narrative

18-DP-MIT05 Carter County Narrative
Included as a part of the total activity funds expended this quarter is the environmental review administrator’s hours from October 2020. The environmental review is complete. Will be advertising for bid by end of October. Risk Assessment has been completed and submitted to CDBG. Completed the projected expenditures report and submitted to CDBG July 29, 2021.

---

**Community Development Systems**

**Disaster Recovery Grant Reporting System (DRGR)**
18-DP-MIT06 Caruthersville Narrative
Designs will be completed this week and will advertise for bids. No activities of construction has taken place at this point.

18-DP-MIT07 Centerville Narrative
The project has not been started. The Environmental Review has been submitted and waiting on approval.

18-DP-MIT08 City of Charleston Narrative
Bids were opened and construction contract awarded 09/30/21. No activities has been started at this point.

18-DP-MIT09 City of Doniphan Narrative
The engineering and surveying services were procured, and the contracts were executed for this project. Both were awarded to Smith & Company. We received the Authority to Use Grant Funds after the ER was completed and approved on September 7, 2021. The engineer and surveyors, Smith & Co., reported they were going to start surveying for this project at the beginning of October.

18-DP-MIT10 City of Eldon Narrative
Surveying is currently being completed so design of the project can be finished.

18-DP-MIT11 City of Ellsinore Narrative
Included as a part of the total activity funds expended this quarter is the Environmental Review administrator’s hours from November 2020. The estimated date for the environmental review to be complete was the end of October. Received a draft copy of the Horner-Shifrin’s contract and sent to CDBG personnel for review and approval. Obtained picture proof that the new Section 3 requirement post was posted in City Hall along with a list of other places posted. Completed projected expenditures report and submitted to CDBG July 29, 2021. Completed Risk Assessment and forwarded to CDBG.

18-DP-MIT12 City Gainseville Narrative
Kickoff meeting has been cancelled.

18-DP-MIT13 City of Louisiana Narrative
Environmental review is currently being worked on and procurement for equipment will being after completion of environmental review.

18-DP-MIT14 City of Louisiana Narrative
Environmental review is currently being worked on and procurement for equipment will being after completion of environmental review.

18-DP-MIT15 City of Mansfield Narrative
Kickoff meeting completed.

18-DP-MIT16 City of Mountain Grove Narrative
- Grant agreements have been executed
- Activity delivery contracts have been executed between the grantee and RPC
- Engineering contracts have been executed between the grantee and engineering firm
- Kick-off meeting has been completed and the project timelines have been discussed and are in process.
The initial ER has been submitted with comments from CDBG- waiting on completion of the 8-step floodplain process to be completed and needing technical information from the engineering firm to complete the ER review.

18-DP-MIT17 City of Mountain View Narrative
RFF for Preliminary engineering contract
Project is in the early stages and has yet to be started.

18-DP-MIT18 City of Poplar Bluff Narrative
Received the City of Poplar Bluff’s conflict of interest and procurement policies and sent to CDBG. The projected expenditures report has been completed and submitted to CDBG July 19, 2021. Risk Assessment has been completed and sent to CDBG. At this time the environmental review has not been started due to the construction of the new police department building is still in progress.

18-DP-MIT19 City of Poplar Bluff Narrative
Received fully executed grant agreement from CDBG. Debarment check complete on OFRPC and the engineering firm, Horner-shifrin. Contract for engineering and technical services has been submitted to CDBG for review and approval. An agreement between client and surveyor for professional services has been submitted to CDBG for review and approval. City is working on the property easement. The risk assessment has been completed and submitted to CDBG.

18-DP-MIT21 Ralls County Narrative
The RFQ for an engineer is currently being developed and is anticipated to be released in October 2021. The environmental review is being worked on as well.

18-DP-MIT22 County of Ripley Narrative
The environmental review was reviewed and approved on 09/21/2021, with the AUGF being issued on 09/29/2021. The procurement of the generator until about the time that the jail building is constructed.

292021 to reflect the correction of payment for activity delivery costs at an hourly rate, and sent to CDBG

18-DP-MIT23 County of Ripley Narrative
We received the Authority to use grant funds after the environmental review was completed on June 1, 2021.
We went out to bid for this generator back in June of 2021. We did not receive any bids at bid opening, so we decided to change our approach. We have several other generator projects that were awarded, so we decided we would wait and bid most of them out at the same time to see if that would help us get bids. We plan to put this out to bid again sometime in the next couple of months.

18-DP-MIT24 City of Sturgeon Narrative
An Engineering firm, MECO engineering, was selected on September 13th, to provide design and construction inspection services on the project. The contract is still being negotiated. Engineering procurement was conducted by Mid-MO RPC. The environmental review has been initiated by the Mid-MO RPC. Financial Accounts have been set up by the city and forms submitted to CDBG.

18-DP-MIT25 City of Winona Narrative
Currently, no work has begun at the site. The admin contract for SCOCOG was received on Sept. 14, 2021.

18-DP-MIT26 City of De Soto Narrative
The city has been working on finalizing the RPF and it has now been reviewed and approved by the DED and is scheduled to be formally publicized in the coming weeks.

18-DP-MIT27 Mark Twain Regional Council of Government narrative
The RFQ is currently being developed and is anticipated to be released in October
2021.

18-DP-MIT28 City of Neosho Narrative

1. Currently working on exempt ER for project
2. HSTCC is working with Neosho to establish who will be participating in the plan on the city side. First meeting will be held shortly after ER has been accepted.

18-DP-MIT29 Ozark Foothills Regional planning commission
We received the authority to use grant funds after the ER was completed on June 16, 2021. An extension request was also approved on July 21, 2021 that extended the project to September 30, 2026. The joint funding Agreement with USGS was executed on July 28, 2021. The agreement does not begin until October 1, so no work has started on this project yet.

18-DP-MIT30 City of West Plains Narratives
Kickoff meeting completed
Project in early stages and has yet to be started. Project in early stages and has yet to be started. Project in early stages and has yet to be started.

Activity Description:
The project will include design and construction of a new 2,200 linear feet long flood wall that completely encompasses the Compton Drive Wastewater Treatment Plant, approximately 12 feet above the current elevation, with primarily a ring levee wall with two flood gates (open for normal ingress/egress in dry weather, and closed during flood events), a below grade sheet pile cutoff wall and new dewatering wells.

Location Description:
The project area is the Compton Drive Wastewater Treatment Plant (WWTP) located at 601 Compton Drive, Branson, MO 65616. The plant currently consists of multiple wastewater treatment buildings.

Activity Progress Narrative:
The grant award was formally accepted by the City of Branson on June 22, 2021. Through this quarter, the Environmental Review (ER) has been worked on and was submitted to CDBG officers. During the ER process, native tribes were consulted and asked for comments regarding the proposed project. The Osage Nation requested a Cultural Resource Survey be conducted on the land. The Cultural Resource Survey results showed no significant impact or artifacts in the area. Results were sent to the Osage Tribe who made no objection to the findings. ER was submitted to CDBG and approved by Kevin McHugh. A combined notice has been drafted and ready to publish, however we must wait on a budget increase request to be approved before moving further.

Engineers submitted statements of qualifications and five statements were received. Procurement team ranked these engineers and selected one and will have a formal agreement in place by October 2021 with the project engineer.

**Activity Description:**
Project will include the purchase of a critical facility 800 amp, 120/208 volt three phase diesel fuel generator that will be installed at the Missouri Highlands Health Care facility.

**Location Description:**
Carter County, Missouri

**Activity Progress Narrative:**
We received the Authority to Use Grant Funds after the Environmental Review was completed on June 1, 2021. We went out to bid for this generator back in June of 2021. We did not receive any bids at bid opening, so we decided to change our approach. We have several other generator projects that were awarded, so we decided we would wait and bid most of them out at the same time to see if that would help us get bids. We plan to put this out to bid again sometime in the next couple of months.

Activity Description:
Project will include the purchase of a critical facility generator that will be integrated into the Carter County Nutrition Center building that meets the need to power the facility in case of a disaster or unexpected power outage. The generator will become part of the building's structure and be able to be operated within the building with an automatic transfer switch.

Location Description:
Carter County, Missouri

Activity Progress Narrative:
Included as a part of the total activity funds expended this quarter is the Environmental Review administrator’s hours from October 2020. The environmental review is complete. Will be advertising for bid by end of October. Risk Assessment has been completed and submitted to CDBG. Completed the projected expenditures report and submitted to CDBG July 29, 2021. Received a draft copy of engineering firm, Smith and Company’s contract and forwarded to CDBG for review and approval.

**Activity Progress Narrative:**

Included as a part of the total activity funds expended this quarter is the Environmental Review administrator’s hours from November 2020. The estimated date for the environmental review to be complete was the end of October. Received a draft copy of the Horner-Shifrin’s contract and sent to CDBG staff for review and approval. Obtained picture proof that the new Section 3 requirement post was posted in City Hall along with a list of other places posted. Completed project expenditures report and submitted to CDBG July 29, 2021. Completed Risk Assessment and forwarded to CDBG.

Activity Status: Planned

Project Title: Gainesville Lick Creek

Projected End Date: 04/29/2024

Completed Activity Actual End Date:

Responsible Organization:
City of Gainseville

Activity Description:
Project will include reconstructing the damaged areas of Lick Creek banks with suitable semi-compacted impervious material until the original slope and grade of the bank is attained. Impervious borrow materials and pervious sand will be added to the breach site to restore the area to pre-flood grade and the east side of the stream would be cut back some, reducing velocity of flow against the bend in the west stream bank where the breach had previously occurred. All repaired areas of the streambank will be reinforced with a Type 2 rock blanket placed over a geotextile fabric which will be used to protect the streambank extending at least two feet below natural grade and at least two feet below the stream flow line. Bank stabilization will also include planting trees along the top of the bank as well as vegetation to all disturbed areas not protected by the rock blanket to slow velocity if flood water were to overtop the streambank in the future.

Location Description:
Lick Creek- Gainseville, MO. Northeast of the Gainesville Wastewater Treatment Facility.

Activity Progress Narrative:
Kickoff meeting has been cancelled.

Activity Description:
Project will include clearing the dry basin of the former Lily Lake to utilize as a "slow-release" storm water retention basin and structurally stabilize the adjacent earthen berm to ensure its long-term stability to substantially reduce the amount of storm water and the flow rates of storm water moving downstream through the city. The project will also replace the failed underground culvert that traverses the large parking lot at the Fun City Entertainment Complex to re-open an important drainage channel that has been rendered useless due to damages sustained from repetitive flooding.

Location Description:
Lily Lake in Mountain Grove, MO

Activity Progress Narrative:
- Grant agreements have been executed
- Activity delivery contracts have been executed between the grantee and RPC
- Engineering contracts have been executed between the grantee and engineering firm
- Kick-off meeting has been completed and the project timelines have been discussed and are in process.
- The initial ER has been submitted with comments from CDBG- waiting on completion of the 8-step floodplain process to be completed and needing technical information from the engineering firm to complete the ER review

### Activity Description:
Project will include the purchase and installation of a 200 amp 120/240 single phase natural gas generator at the Missouri Highlands Health Care facility.

### Location Description:
Missouri Highlands Health Care facility, Ripley County.

### Activity Progress Narrative:
We received the Authority to use grant funds after the environmental review was completed on June 1, 2021. We went out to bid for this generator back in June of 2021. We did not receive any bids at bid opening, so we decided to change our approach. We have several other generator projects that were awarded, so we decided we would wait and bid most of them out at the same time to see if that would help us get bids. We plan to put this out to bid again sometime in the next couple of months.

Activity Description:
Project will include replacing the undersized and failing corrugated metal pipes in Drainage Area 1 and Drainage Area 2 with engineered, precast, concrete boxes, realigning the channel of Drainage Area 1 and placing rock in the channel to prevent erosion, and increasing the volume of Saling Creek, east of the City’s Wastewater Treatment Facility, by widening the channel, laying back the east bank at a lower slope, and removing snags along the channel. The widened channel will create a kind of natural basin where floodwater can spread out over a large area.

Location Description:
Saling Creek in Sturgeon, MO

Activity Progress Narrative:
An Engineering firm, MECO engineering, was selected on September 13th, to provide design and construction inspection services on the project. The contract is still being negotiated. Engineering procurement was conducted by Mid-MO RPC. The environmental review has been initiated by the Mid-MO RPC. Financial Accounts have been set up by the city and forms submitted to CDBG.

- **Total Funds Expended:** $0.00
- **Total Obligated:** $81,984.00

#### Location Description:

- Neosho, MO

#### Activity Description:

Project will include developing a plan to create a committee that will be responsible for meeting quarterly to discuss hazard mitigation goals and also ensure that committee members know what their roles are in the event of a disaster. The committee will use the National Disaster Recovery Framework and the Missouri Disaster Recovery Framework to identified Neosho’s highest mitigation needs and document those needs.

#### Location Description:

- Neosho, MO

#### Activity Progress Narrative:

1. Currently working on exempt ER for project
2. HSTCC is working with Neosho to establish who will be participating in the plan on the city side. First meeting will be held shortly after ER has been accepted.

**Activity Description:**
Project is in partnership with South Central Ozark Council of Governments and will include a regional approach on developing an online flood inundation mapping (FIM) tool to be used by public officials to input forecasted river stage data to quickly see where the water will inundate communities, specifically Doniphan, Van Buren, and Eminence. The FIM tool will also allow public officials to develop a plan for the safe evacuation of residents prior to a flood event associated with the Jacks Fork and Current Rivers that run through the aforementioned communities, as well as Carter, Ripley, and Shannon Counties.

**Location Description:**
Missouri Counties: Carter, Ripley and Shannon

**Activity Progress Narrative:**
We received the authority to use grant funds after the ER was completed on June 16, 2021. An extension request was also approved on July 21, 2021 that extended the project to September 30, 2026. The joint funding Agreement with USGS was executed on July 28, 2021. The agreement does not begin until October 1, so no work has started on this project yet.
