

## FY21 Challenge Process Missouri Emergency Broadband Investment Grant Challenges Found to be Valid

### **Socket Telecom, LLC – East Christian School Road Project Area**

**Application withdrawn** - Challenger CenturyLink

The challenger submitted information for review and the applicant was provided an opportunity to respond to the challenge. The applicant in their response withdrew their application from the program and thus concluded the challenge from being further reviewed.

---

### **Socket Telecom, LLC – St. Martins Extension Project Area**

**Accepted as valid** - Challenger CenturyLink

The challenger provided competent and substantial evidence demonstrating they are currently providing retail high-speed internet services within two contested census blocks, the review process modified the project area and removed the disputed area. The modified project area was then finalized and awarded grant assistance.
