Grantee: Missouri

Grant: B-12-DT-29-0001

July 1, 2015 thru September 30, 2015 Performance Report
Grant Number: B-12-DT-29-0001

Grantee Name: Missouri

Grant Award Amount: $8,719,059.00

LOCCS Authorized Amount: $8,719,059.00

Total Budget: $8,719,059.00

Disasters:

Declaration Number
FEMA-1980-MO
FEMA-4012-MO

Narratives

Disaster Damage:
Missouri was heavily impacted by severe storms, tornadoes and flooding that began on April 19, 2011. Southern and northwestern portions of the state were inundated with flood waters, while the cities of Joplin and Sedalia, and Jasper, Newton and St. Louis Counties sustained heavy tornado damage. These disasters resulted in 161 fatalities, 535 reported injuries, 10,443 destroyed or damaged homes, and impacted more than 500 businesses. Many of the counties included in the FEMA disaster declaration for Individual and/or Public Assistance are some of Missouri’s most poverty-stricken.

It is difficult to ascertain the magnitude of the impact that disasters in Missouri had during spring and summer 2011. DR 1980 included the Joplin tornado, which claimed 161 lives and destroyed approximately 1/3 of the city, southeast flooding (including the intentional breach of the Bird’s Point Levee), and tornadoes in St. Louis and Sedalia. DR 4012 included Missouri River flooding in northwest Missouri.

Housing: The 2011 Missouri Disasters had a significant impact on housing. There were 7,378 housing units destroyed, 1,092 with major damage, 1,973 with minor damage, and 2,647 considered “affected” by FEMA. For DR 1980, about 56% of the housing units were insured. For DR 4012, only 22% were insured.

Infrastructure: Flooding in Southeast Missouri impacted dozens of state and U.S. highways. Water over the roadways resulted in over 440 road closures at the peak of the flood, according to the Missouri Department of Transportation (MODOT). This impacted not only inter-state travel, but also local travel for farmers and access to homes and industrial areas. In Joplin, the tornado path was large enough to affect many of the north/south transportation routes through town, and also at least some of the major east/west routes. In St. Louis, transportation was impacted on a large scale as Lambert-St. Louis International Airport’s Concourse C took a direct hit from a tornado on April 22, 2011. Many highways in Northwest Missouri were closed for many weeks, including Interstate 29 at Rockport, US-136 at the Missouri River, US-159 at the Missouri River, and US-99 at the Missouri River. MODOT reported over 164 flood-related road closures at the peak of the Northwest Missouri flooding. In Joplin, three public schools were destroyed, one private school was destroyed, three other public schools had significant damage, and one private school had minor damage. ChildCare Aware of Missouri reported that Joplin’s child care industry has been nearly cut in half. Before the tornado (as of 5/1/2011), there were 85 child care and early learning programs available in Joplin. After the tornado (as of 6/17/11), there were only 44. One hospital was destroyed, three long-term care facilities were destroyed and one was damaged. Joplin lost several group homes for people with mental and developmental disabilities.

Flooding has devastated fertile farmland in southeast and northwest Missouri. According to the Missouri Economic Research and Information Center (MERIC), Missouri ranks second in the nation in the number of farms, with 107,825. Missouri employs 298,320 workers in farms and agribusiness industries. The map at http://www.missourieconomy.org/pdfs/missouri_farms_and_agribusiness.pdfindica

Projected Economic Impacts: More than 500 businesses in Joplin were either destroyed or otherwise impacted. According to the Bureau of Labor Statistics data, the 500 impacted businesses represent 25% of Joplin’s total employment (9,700 employees).
Disaster events 1980 and 4012 included major flooding occurred along the Missouri and Mississippi rivers and also in Taney County. Tornadoes were also a major contributor to damages found in Joplin, Sedalia, and St. Louis. HUD’s 2011 estimate of unmet needs for severely damaged homes and businesses totaled $107,257,964; housing unmet needs totaled $74,283,794 and business unmet needs totaled $32,974,170. In 2011, damages to businesses and homes reduced profits and family incomes resulting in a decline in total economic activity in the state by $81.8 million. In addition, Gross State Product (GSP) declined by $52 million and Personal Income in the state declined by $102 million. The loss to business profits and family income also resulted in over 800 job losses throughout the state. Other effects include crop losses from the Birds Point Levee Breach in 2011 that flooded over 130,000 acres of farmland and homes. Initially, FAPRI estimated a net loss of $42.6 million in lost crop revenues to the Southeast Missouri region. The study had originally assumed that all 130,000 acres were unusable. Later reports reassessed the damage to acreage and determined that at least 90% of the acreage was used and did in fact produce crops. Given that 10% of the acreage turned out to be unusable, FAPRI’s model would now reflect $4.26 million in net losses to crop revenues. Combining the economic impact of business and home losses with crop revenue losses equates to a reduction in overall state economic activity of $86.06 million.

Recovery Needs:

Housing Need: Even one year later, the rate of unmet needs remains high. As of December 2011, severe housing unmet needs were calculated by HUD at $74,283,794. Of the 16,489 FEMA registrants for DR 1980, 43% of these registrants were ineligible for the Individuals and Households Program. Specifically, 41% were ineligible for the Housing Assistance Program. As of June 6, 2012, the U.S. Small Business Administration had received 1,848 applications for home loans and had only approved 605 of them, an approval rate of about 32.7%, leaving 1,243 (67.3%) requests unmet. Infrastructure Need: Flooding, tornadoes, and severe storms caused numerous amounts of damage to the infrastructure systems in Missouri during 2011. According to FEMA’s Public Assistance assessments, the estimated total need for public assistance is $177,781,945. This is broken down by category:

- Category A (Debris Removal): $67,837,716
- Category B (Emergency Protective Measures): $18,793,962
- Category C (Roads and Bridges): $32,336,757
- Category D (Water Control Facilities): $694,150

It should be noted that the repair of levees, dams and flood control channels fall under Category D, but the eligibility of these facilities is restricted by FEMA. In Missouri, the U.S. Army Corps of Engineers will look to CDBG as a partner in levee restoration.

- Category E (Buildings and Equipment): $50,838,428
- Category F (Utilities): $6,047,955
- Category G (Parks, Recreational and Other Facilities): $1,432,977

Economic Need: The Department of Economic Development used an economic model to assess the impact to the region based on these unmet needs. The unmet needs of businesses were entered into the model as an increased cost in capital investment of $32,974,170. Likewise, the unmet needs of housing affected the equity and rental incomes of property owners; the region’s personal income was lowered in the model by $74,283,794. Although agriculture is important to the economy in the northwestern part of the state, southeast Missouri relies heavily on agriculture as its economic base. In 2011, when the Bird’s Point Levee was intentionally breached, thousands of acres of farmland were taken out of production for 2011. The State of Missouri intends to apply this post disaster analysis of the economic conditions of southeast Missouri and make available funding under the economic development category to address specific agriculture related job creation activities in a manner that leaves the communities in the area better positioned to meet the needs of their post disaster populations and prospects for growth. This category may solicit requests for proposal for economic development activities that allow for a broader approach to the agricultural industry supply chain which includes manufacturing of products grown in the flooded areas.

Method of Distribution:

1. According to FEMA’s Public Assistance assessments, the estimated total need for public assistance is $177,781,945. This is broken down by category:

   - Housing/Infrastructure: $4,141,554
   - Economic Revitalization/development: $4,141,553
   - Administration (state/local): $485,952

2. All applications for 2011 CDBG Disaster funding will be evaluated for:

   - Need (the breadth and depth of the disaster in terms of population affected and sectors (housing, infrastructure, business, environment) affected within the community;
   - Capacity (the degree of expertise and experience that the local government or contracted agency has to manage the project, administer the funds, and succeed with the outcomes and objectives defined in the application);
   - the project’s impact on short and long term community recovery (the amount of spin off, community awareness and support and degree to which the activities will lead to further recovery);
   - Local effort (other state/federal resources, local cash, human resources, in-kind efforts) and do the CDBG funds assist with non-federal share for FEMA and/or USACE funding;
   - consistency with a local short and long term recovery plan;
   - project sustainability and future disaster mitigation (the degree to which activities are defined with sound construction practices, quality and durability, energy efficiency and flood control or flood resistance)

   - No maximum grant amount has been established for CDBG Disaster applications. Applicants must demonstrate financial need and leverage all (local, state and federal) available funds to minimize CDBG funding participation.
3. It is possible that the State (DED) will carry out an activity directly. This will depend entirely on need and applications received. Eligible activities will include housing, infrastructure and economic revitalization/development. The geographic area is limited to those areas included in Presidential Disaster declarations DR-1980 and DR-4012.

4. It is possible that the State (DED) will carry out an activity directly. This will depend entirely on need and applications received. Eligible activities will include housing, infrastructure and economic revitalization/development. The geographic area is limited to those areas included in Presidential Disaster declarations DR-1980 and DR-4012. Any of the three CDBG national objectives may be used for activities carried out directly; however, at least 50% of the total allocation must meet the LMI national objective. Because of this requirement, recipients of CDBG Disaster funding should use the LMI national objective for all activities that qualify under the LMI criteria.

5. All applicants for CDBG disaster funding must demonstrate the relationship of the proposed activity to the disaster event.

Public Comment:
The draft CDBG Disaster Action Plan was made available on the DED website on July 6 for a seven day public comment period ending on July 12. The availability of the plan was made public via the DED Weekly electronic newsletter, and was also disseminated to local communities and other partners via the Missouri Municipal League and the regional planning commissions/councils of local government. No comments were received.

Recovery Needs:

proposed activity will assist in the long-term recovery from the disaster event.

6. The following are criteria used to distribute funds to local governments including the relative importance of each criterion.

• need (the breadth and depth of the disaster in terms of population affected and sectors (housing, infrastructure, business, environment) affected within the community (25%));

• capacity (the degree of expertise and experience that the local government or contracted agency has to manage the project, administer the funds, and succeed with the outcomes and objectives defined in the application) (10%);

• the project’s impact on short and long term community recovery (the amount of spin off, community awareness and support degree to which the activities will lead to further recovery) (20%);

• local effort (other state/federal resources, local cash, human resources, in-kind efforts) and do the CDBG funds assist with non-federal share for FEMA and/or USACE funding (15%);

• consistency with a local short and long term recovery plans (10%);

• consistency with local and state floodplain management practices (10%);

• project sustainability and future disaster mitigation (the degree to which activities are defined with sound construction practices, quality and durability, energy efficiency and flood control or flood resistance) (10%)

7. The following are criteria used to select applications for funding, including the relative importance of each criterion.

• need (the breadth and depth of the disaster in terms of population affected and sectors (housing, infrastructure, business, environment) affected within the community (25%));

• capacity (the degree of expertise and experience that the local government or contracted agency has to manage the project, administer the funds, and succeed with the outcomes and objectives defined in the application) (10%);

• the project’s impact on short and long term community recovery (the amount of spin off, community awareness and support degree to which the activities will lead to further recovery) (20%);

• local effort (other state/federal resources, local cash, human resources, in-kind efforts) and do the CDBG funds assist with non-federal share for FEMA and/or USACE funding (15%);

• consistency with a local short and long term recovery plans (10%);

• consistency with local and state floodplain management practices (10%);

• project sustainability and future disaster mitigation (the degree to which activities are defined with sound construction practices, quality and durability, energy efficiency and flood control or flood resistance) (10%)

Definitions of disaster related activities:

All CDBG disaster recovery activities must clearly address an impact of the disaster for which funding was appropriated. This means that each activity must:

1. be CDBG eligible,

2. meet a national objective, and

3. address a direct or indirect impact from the disaster.

A disaster related impact can be addressed through any eligible CDBG activity.

Housing – Typical housing includes new construction and rehabilitation of single family or multifamily units.

Infrastructure – Typical infrastructure activities include improvement or relocation of damaged public facilities.

Economic Revitalization – Economic revitalization is not limited to activities that create or retain jobs. For CDBG disaster recovery purposes, economic revitalization can include any activity that demonstrably restores and improves some aspect of the local economy; the activity may address job losses or negative impacts to tax revenues or businesses. Examples of eligible activities include providing loans to businesses, funding job training, infrastructure improvements to commercial areas, and financing other efforts that attract/retain workers in disaster affected communities. All economic revitalization activities must address an economic impact(s) caused by the disaster (loss of jobs, loss of public revenue). Applicants for economic revitalization assistance must clearly identify the economic loss or need resulting from the disaster, and how the proposed activities will address that loss/need.

Recovery Needs:
damaged homes and rental units. However, it is also allowable to carry out new construction activities or rehabilitation of units not damaged by the disaster if these activities clearly address a disaster related impact. This impact can be demonstrated by the disaster’s overall effect on the quality, quantity, and affordability of the housing stock and the resulting inability of that stock to meet post-disaster needs and population demands. The standard CDBG rehabilitation and reconstruction rules apply.

Infrastructure – Typical infrastructure activities include the repair, replacement, or relocation of damaged public facilities.

Economic Revitalization – Economic revitalization is not limited to activities that create or retain jobs. For CDBG disaster recovery purposes, economic revitalization can include any activity that demonstrably restores and improves some aspect of the local economy; the activity may address job losses or negative impacts to tax revenues or businesses. Examples of eligible activities include providing loans to businesses, funding job training, infrastructure improvements to commercial areas, and financing other efforts that attract/retain workers in disaster affected communities. All economic revitalization activities must address an economic impact(s) caused by the disaster (loss of jobs, loss of public revenue). Applicants for economic revitalization assistance must clearly identify the economic loss or need resulting from the disaster, and how the proposed activities will address that loss/need.

Preparedness and Mitigation – These funds shall be used for recovering from a Presidential-declared major disaster. As such, all activities must respond to the impacts of the declared disaster. HUD and the State strongly encourage grantees to incorporate preparedness and mitigation measures into rebuilding activities, which helps to ensure that communities recovery to
be safer and stronger than prior to the disaster. Incorporation of these measures also reduces costs in recovering from future disasters. However, given the limited funding available and the restrictions in the Appropriations Act, CDBG disaster recovery funds may not be used for activities that are solely designed to prepare for and/or mitigate the effects of a future disaster without any tie to rebuilding from the previous disaster.

Tie to the Disaster – Grantees must document in each application how the proposed activities are tied to the disaster for which public assistance is applied. In regard to physical losses, damage or rebuilding estimates are often the most effective tool for demonstrating the connection to the disaster. For economic or other non-physical losses, post-disaster analyses or assessments may best document the relationship between the loss and the disaster. Note that grantees are not limited in their recovery to returning to pre-disaster conditions. Rather, grantees are encouraged to undertake activities in such a way that not only addresses the disaster-related impacts, but leaves communities better positioned to meet the needs of their post-disaster populations and prospects for growth.

Use of funds for other disasters not covered by the Appropriations Act – CDBG disaster recovery funds may not be used to address an impact not originating from a disaster occurring in 2011.

Recovery Needs:

However, if a need that arose from a previous disaster was exacerbated by a 2011 disaster, disaster recovery funds may be used. CDBG eligible activities are:

1. Property Acquisition
2. Property Disposition
3. Property Clearance/Demolition
4. Architectural Barrier Removal
5. Senior Center
6. Community Facilities
7. Centers for the Handicapped
8. Historic Properties
9. Water Treatment/Storage
10. Sanitary Sewer Collection
11. Storm Sewers
12. Flood and Drainage Facilities
13. Streets (or Roads)
14. Street Accessories
15. Parking Facilities
16. Bridges
17. Sidewalks
18. Pedestrian Malls
19. Recycling or Conversion Facilities
20. Parks and Recreation Facilities
21. Fire Protection/Facility Equipment
22. Solid Waste Disposal Facilities
23. Other Utilities
24. Public Service/Supportive Services
25. Rehabilitation of Private Residential Properties
26. Rehabilitation of Public Residential Properties
27. Payments for Loss of Rental Income
28. Relocation
29. Code Enforcement
30. Energy Use Strategy
31. Non-Federal Share Payment
32. Interim Assistance
33. Planning
34. Commercial or Industrial Facilities
35. Administration
36. Engineering/Design
37. Housing Rehab/Demo Inspection
38. Engineering/Construction Inspection
39. Audit
40. Port Facility

1. 911 Emergency Systems
2. Homeowners Assistance- up to $5,000 to purchase an existing DSS home
3. Lead-Based Paint Risk Assessment
4. Asbestos Removal
5. Job Training
6. Home-Ownership Counseling
7. Substantial Reconstruction of the reconstruction of private residential properties on same lot- up to $15,000
8. Water Distribution
9. Lead Reduction NOT incidental to Rehab
10. Asbestos Inspection

National Objective
All three national objectives may be used with these disaster recovery funds: low and moderate income (LMI) benefit, slum and blight removal, and urgent threat to health and safety. No less than 50% of the State’s allocation of disaster recovery funding must be used for activities that meet the LMI national objective. Because of this requirement, grantees should use the LMI national objective for all activities that qualify under the LMI criteria.

Overall Progress Narrative:

57. 911 Emergency Systems
58. Homeowners Assistance- up to $5,000 to purchase an existing DSS home
59. Lead-Based Paint Risk Assessment
60. Asbestos Removal
61. Job Training
62. Home-Ownership Counseling
63. Substantial Reconstruction of the reconstruction of private residential properties on same lot- up to $15,000
64. Water Distribution
65. Lead Reduction NOT incidental to Rehab
66. Asbestos Inspection

National Objective
All three national objectives may be used with these disaster recovery funds: low and moderate income (LMI) benefit, slum and blight removal, and urgent threat to health and safety. No less than 50% of the State’s allocation of disaster recovery funding must be used for activities that meet the LMI national objective. Because of this requirement, grantees should use the LMI national objective for all activities that qualify under the LMI criteria.

26
Activity Description:
Project will assist in addressing unmet needs from 2011 flood event. Project activities include clearing/replacing two road tubes and dredging lake channels to improve drainage.

Location Description:
Village of Big Lake.

Activity Progress Narrative:
Activity 1: DB-Drainage
Narrative: 0% complete. During this period, July 1 to September 30,2015 - No construction conducted on this project.

Activity 2: Acquisition:
Narrative: No acquisition activity has been done at this time. However, the village is seeking land for the use of the sediment that will be dredged from the lake.

Activity 3: Engineering Design
Narrative: This project is currently in the design phase. Snyder & Associates were hired in June 2015 to complete the design.

Activity 4: Construction Inspection
Narrative: Snyder & Associates will conduct the inspection services during the construction phase. No construction has been conducted.

Activity 5: Other Professional Services
Narrative: A hydrographic survey will be conducted to determine the true depths of the water. The survey has not begun.

Activity 6: Administration
Narrative: 27% complete. The NW MO Regional Council was hired in July 2015 to perform the administrative duties for this grant. At this time, the village has spent $4,000 of the Administration fees.

Narrative: A hydrographic survey will be conducted to determine the true depths of the water. The survey has not begun.
Activity 6: Administration
Narrative: 27% complete. The NW MO Regional Council was hired in July 2015 to perform the administrative duties for this grant. At this time, the village has spent $4,000 of the Administration fees.
