Wine and Grape Production Program Guidelines

Effective August 28, 2005, and pursuant to Section 620.1900, RSMo, this tax credit program is subject to a fee of 2.5% of the amount of tax credits issued. Applicants will be invoiced for the fee after the tax credit application has been approved. Tax credits will be issued upon receipt of the fee.

PURPOSE:

These guidelines shall assist Missouri wine producers and grape growers in the implementation and application of the wine and grape production program. The program operates under the provisions of Section 135.700, RSMo.

WHAT IS A WINE AND GRAPE PRODUCTION TAX CREDIT PROGRAM?

The program assists wine producers and grape growers who purchase new equipment and materials used directly in wine and grape production by granting a tax credit against state tax liability.

WHO MAY APPLY?

Wine producers and grape growers physically located in Missouri are eligible to apply for this program.

ELIGIBLE PURCHASES DEFINED:

Equipment and materials must be new purchases. The purchase price is the selling price of the new equipment and materials, excluding sales tax, delivery cost, shipping and handling costs, installation costs, and other unrelated costs.

The new equipment and materials must be:

- Used on land owned or leased for the purpose of producing wine or growing grapes; and
- Used directly in the production of wine or growing of grapes in the state of Missouri.

The new equipment and materials will be considered used directly based upon:

- Where the item in question is used;
- When the item in question is used; and
- How the item in question is used to produce wine or grow grapes.

ISSUANCE OF TAX CREDITS:

A grape grower or wine producer shall receive a tax credit against the state tax liability incurred pursuant to Chapter 143, RSMo, excluding the provisions relating to the withholding of tax as provided in Sections 143.191 to 143.265, RSMo, in the amount of 25% of the purchase price of all new equipment and materials used directly in the growing of grapes or the production of wine in Missouri.

DED will review the application and report of expenses along with the supporting documents. Effective August 28, 2005, and pursuant to Section 620.1900, RSMo, this tax credit program is subject to a fee of 2.5% of the amount of tax credits issued. Applicants will be invoiced for the fee after the tax credit application has been approved. Tax credits will be issued upon receipt of the fee. Once the fee has been processed, a Certificate of Eligibility will be issued and mailed to the applicant. Tax credits will be issued for the year when the purchases were made and may be used to offset the state tax liability in the same year. A purchase is considered made in the year the funds are expended. The producers may apply for only five years. The tax credits cannot be carried forward or sold.

HOW TO APPLY:

An “Application for Requesting a Certificate of Tax Credit for the Purchases of New Equipment or Materials” and “Report of Expenses for the Wine and Grape Production Program” along with the supporting documents must be completed to demonstrate that all the requirements are met, and sent to DED for review.

The registration of the business with the Secretary of State is required if the winery or vineyard is formed as a corporation, general partnership, or limited liability company. Please refer to the website below for more information: <https://www.sos.mo.gov/businessentity/nameregistration/Default.aspx>

SUPPORTING DOCUMENTS:

Proof of purchase:

- Invoice or receipt

Proof of payment:

- Cancelled Check (for check transactions);
- Bank Statement (for debit card transactions); or
- Credit Card Statement (for credit card transactions).

Note: Cash transactions are not eligible for tax credits, as they cannot be easily tracked to the eligible applicant.

NAICS:

NAICS is North American Industry Classification System. The Federal Office of Management and Budget (OMB) adopted the NAICS as the industry classification system used by the statistical agencies of the United States. NAICS replaces the 1987 Standard Industrial Classification (SIC). The NAICS is used for classifying business establishments to assist with gathering data related to measuring productivity, unit labor costs, and the capital intensity of production, employment and other information. Missouri businesses are assigned a NAICS when the company files a "Report to Determine Liability Status" with the Missouri Department of Labor and Industrial Relations, Division of Employment Security to determine Unemployment Tax Liability. Normally, a general business employer becomes liable for the tax and responsible for providing unemployment insurance for its workers when it:

- Pays \$1,500 in wages (cash and in-kind) in a calendar quarter, or
- Has an employee in some portion of a day in each of twenty (20) different weeks, or
- Becomes liable under the Federal Unemployment Tax Act (FUTA) and employs a worker in Missouri, or
- Acquires and continues without interruption substantially all the business of a liable employer.

NOTICE:

The Tax Credit Accountability Act of 2004 (Senate Bill 1099, Sections 135.800 through 135.830, RSMo) makes several changes to the tax credit programs, specifically:

- Processing tax credit applications;
- Annual reporting requirements; and
- Penalty provisions.

CHANGES IN PROCESSING OF TAX CREDITS (SECTION 135.815, RSMo)

Prior to authorization of a tax credit, the DED will contact the Departments of Revenue and Insurance and verify that the applicant does not owe any delinquent income, sales, use, or insurance taxes, or interest or penalties on such taxes. If a delinquency exists, the amount of tax credits issued will be reduced by the amount of the delinquency. After satisfying all delinquencies, the remaining credits shall be issued.

REPORTING REQUIREMENTS (SECTION 135.805, RSMo)

Certain tax credit recipients are required to annually report information pertaining to the project that received the tax credits to DED. The statute requires that a full year pass after the issuance of the tax credits before SB1099 reporting requirements must be met. The earliest date that SB 1099 reporting may be required is June 30, 2006.

The Agricultural Category of tax credits, which includes the wine and grape production program, requires recipients to annually report for three (3) years following the date of issuance of the tax credits to DED the following information:

- Type of agricultural commodity
- Amount of contribution
- Type of equipment purchased
- Name and description of facility

PENALTY PROVISIONS (SECTION 135.810, RSMo)

Failure to meet the annual reporting requirements or fraud in the application process if determined by a court, such person or entity shall be subject to penalties.

If the annual report is ninety (90) days past due, the DED shall send notice by registered mail to the last known address of the person or entity who is required to complete the annual report. The notice shall inform the person or entity of the past-due report and the pending penalties and their respective deadlines.

If the annual report is six (6) months past due, the DED shall notify the Department of Revenue that the taxpayer is subject to penalties because of failure to report.

Such penalties include the following:

- Failure to report for six (6) months but less than one year shall equal a penalty of two percent (2%) of the value of the tax credits issued for each month of the delinquency.
 - **EXAMPLE:** Recipient receives \$10,000 in tax credits. Annual report is due June 30, 2006, however, the recipient does not submit the report until March 30, 2007. The recipient is nine (9) months delinquent and the penalty would equal 2% multiplied by \$10,000 for nine (9) months or \$1800.
- Failure to report for more than one (1) year shall equal a penalty of ten percent (10%) of the value of the credits issued for each month of the delinquency, not to exceed one hundred percent (100%) of the tax credit value.
 - **EXAMPLE:** Recipient receives \$10,000 in tax credits. Annual report is due June 30, 2006, however, the recipient does not submit the report until March 30, 2008. The recipient is twenty-one (21) months delinquent and the penalty would equal 10% multiplied by \$10,000 for twenty-one (21) months or \$21,000, however, the statute limits the penalty to the amount of the tax credits, therefore, the penalty would be \$10,000.

The taxpayer shall be liable for any penalties as of December 31 of any tax year and the liability shall be due as of the filing date of the taxpayer's next income tax return.

If the taxpayer is not required to file an income tax return, the taxpayer's liability for penalties shall be due as of April 15th of each year.

The Director of the Department of Revenue shall offset any tax credits claimed on a filed tax return against an outstanding penalty before applying such credits to the tax year against which they were originally claimed.

Any nonpayment of liability for penalties shall be subject to the same provisions of law as a liability for unpaid income taxes, including but not limited to, interest and penalty provisions.

Penalties shall remain the obligation of the person or entity obligated to complete the annual report without regard to any transfer of the credits.

CLOSED RECORDS (SECTIONS 610.255 and 620.014, RSMo)

Prior to August 28, 2004 and pursuant to Section 620.014, DED had the authority to close certain records except for the name of the tax credit recipient and the amount of the tax credit. SB 1099 removes this broad exception but DED retains the authority to close records or documents that "relate to financial investments in a business, or sales projections or other business plan information which may endanger the competitiveness of a business" or as also allowed by law.
